CHUCK BACON

Type: ROUTINE INSPECTION

Date: Jul-08-2009

SCHELL CITY, MO 64783

3.6 (a) (2) (i)

PRIMARY ENCLOSURES.

Primary enclosures must be constructed and maintained so that they: Have no sharp points or edges that could injure the dogs and cats.

**There were at least 3 enclosures on the outside of the "sundowner" building that had broken and protruding wires on the sides of the wire mesh enclosures. These broken and protruding wires could cause injury to the animals. The licensee needs to repair or replace these areas of broken wire.

**There was a broken support pipe on the bottom of the chain link fence between two outdoor enclosures. This pipe had sharp points and edges, which could cause injury to the dogs. The licensee needs to repair or replace this area of broken pipe.

The licensee needs to establish and maintain a program to ensure that all enclosures at the facility have no sharp points or edges that could injure the dogs. This item affects 16 dogs. TO BE CORRECTED BY: Aug 15, 2009.

3.11 (d)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Pest control. An effective program for the control of insects, external parasites affecting dogs and cats, and birds and mammals that are pests, must be established and maintained so as to promote the health and well-being of the animals and reduce contamination by pests in animal areas.

**There was an excessive population of flies around the facility. The flies were observed around the outside and the inside of the buildings. The licensee is currently utilizing a spray around the facility, but this is not sufficiently eliminating the current population of flies. The licensee needs to eliminate or reduce the current flies and establish an effective program of pest control to promote the health and well-being of the animals and to reduce contamination by the pests. This item affects approximately 100 dogs. TO BE CORRECTED BY: Aug 8, 2009.

2.40 (a)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

(1) Each dealer and exhibitor shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the dealer or exhibitor.

* Program of vet care calls for an annual inspection by the vet of record. Last regular scheduled visit was on 2/3/07 affecting 120 dogs. Correct by 8/8/08.

* Left copy of the program of vet care to be filled out & signed by the vet of record affecting 120 dogs. Correct by 8/8/08.

3.8

EXERCISE FOR DOGS.

Dealers, exhibitors, and research facilities must develop, document, and follow an appropriate plan to provide dogs with the opportunity for exercise. In addition, the plan must be approved by the attending veterinarian. The plan must include written standard procedures to be followed in providing the opportunity for exercise. The plan must be made available to APHIS upon request, and, in the case of research facilities, to officials of any pertinent funding Federal agency.

* Licensee did not have a copy of the program of exercise on hand to be viewed during the inspection. Left copy of the program of exercise to be filled out & signed by the vet of record affecting 120 dogs. Correct by 8/8/08.
